Invitation

We would like to invite the gracious presence of all the participants across the globe to attend the Global summit on Virology (Virology-2015) that will be held during August 27-29, 2015 at Dubai, UAE.

Virology-2015 conveys recent developments in basic virology sciences i.e. Prevention, measures, human viral diseases, infectious diseases, viral immunology, antiviral drug discovery and development of effective therapies for viral disorders. We aimed at bringing the high-quality scientists all around the world to a common platform to discuss various trends of Virology.

Our conference offers an opportunity to endorse researcher-researcher interaction, scientists potential business collaborations through the dynamic scientific sessions. The theme of the conference is aiming at Innovations and Therapeutic approaches in Virology

Global summit on Virology, where thousands of scientists meet, will give chance for learning, sharing and exchanging Ideas through discussion of different views. Lectures, plenary sessions, poster exhibitions and different Council meetings will also make this event the premier international event in Virology annually. Not only that but also finding out new research-project ideas and working groups as new collaborators. Within social side finding new friends and greeting old ones complements will be endorsed. The annual Congress also serves the Young Virologist Group with special-planned sessions and workshops focused on current issues facing this unique segment of the profession

We will provide you official invitation upon request.

Regards,

Virology-2015 Operating Committee
